### My story

I'm a guitarist in my church band and decided to try something new so became involved in Poly group in my second-to-last year of college.

Being part of the Poly group has made me realise I have other gifts and talents. I learn new actions and sing songs in my Pasifika language.

I make sure I attend all my practices. I rehearse my actions for each dance and familiarise myself with each song. This is so much fun.

I know we have to give our fundraising ideas so I make sure I do my part in this.

I enjoy being part of a positive group. I think it brings out the best in me.

### My employability skills

- I am respectful and polite to my teachers, group leaders and elders.
- I need to have good communication skills in my basketball team, church band and Poly group.
- I share my ideas on fundraising to support our Poly group, and do my part in fundraising events.
- I manage study and church band commitments, and attend all practices.
- I work hard at practices and events, and accept feedback. I memorise scriptures and songs, and give short speeches for White Sunday.
- Poly group helps me think about how to be a better leader when I lead songs.
- When things don't go right, I learn from them and don't give up.
